

PeopleSoft Financials Functional Consultant -- 4 Consultants Required --

Operating since 2000, Inforica is one of the leading professional services firms in Canada. With a team of over 100 highly experienced professionals, we offer the capabilities of a large firm and the entrepreneurial zeal of a start up. Our value proposition is simple - we offer deep capability with a track record of 100% project success at highly competitive prices. We have extensive business and technical experience with Fortune 500 clients across diverse industries. Our three core practice areas include Enterprise Solutions, Technology and Consulting.

We have four openings for full time PeopleSoft Finance Functional Consultants

Description:

We are looking for experienced, energetic, individuals with strong functional skills and experience in PeopleSoft financials (GL, AP, Purchasing, etc.). The successful candidates will participate in all aspects of financial systems implementation and upgrading, including requirements gathering, fit/gap analysis, application design, configuration, testing and implementation. The candidates will have past experience in client mentoring and training and would have played the role of Lead Functional Consultant.

Other Responsibilities:

- Supervising process and functional design activities
- Understanding Client Business Process Flow
- Developing and testing detailed functional designs for business solution components and prototypes
- Oversee application build, test, and deploy activities
- Planning and executing data conversion activities
- Driving test planning and execution
- Participation in Meetings/WorkShops (Client and Other Vendors)
- Project Planning and Understanding Large Complex Plans
- Manage application design and architecture components of various PeopleSoft Financial Management projects

Skills/ Qualifications:

- 3+ years of experience with PeopleSoft Financials
- Ideal candidates will have implementation and upgrade experience (2 full life cycle implementation.)
- Good at Analysis, Documentation and Fit-Gap experience and Conducting workshops
- Experience with Reporting, Interfaces, Data Conversion and Security
- Must have PeopleSoft 8.4 or higher Financials experience with detailed knowledge across more than two Financials modules (GL, AP, AR, Purchasing, Billing, Projects, Assets, Inventory, Contracts, Budgeting, etc.)
- Ability to work creatively and analytically in a problem-solving environment
- Excellent leadership, written communication, oral communication and interpersonal skills

We thank everyone for their interest. However, only qualified candidates will be contacted.
